December 2022

Price adjustment for brick pallets

Dear Ladies and Gentlemen

The brick deposit pallet continues to be a reliable and ecologically sensible packaging system. The general procurement situation on the raw materials/logistics market continues to be characterised by shortages and rising prices, so that a renewed price adjustment is necessary.

Therefore, for all deliveries from 01.01.2023 onwards, we will change the calculation/remuneration system for our brick pawn pallet as follows:

Calculation:

- Brick pawn pallet 12,00 Euro

remuneration:

- in the case of freight-free, de-nested return (free Uelsen brickworks) 10,50 Euro
- in the case of collection less the freight costs actually incurred/

Travel/waiting time flat rates

- Hamburg pallets cannot be reimbursed.

We reserve the right to make future price adjustments due to market-related changes and thank you for your understanding.

Take-back of brick pallets

As a general rule:

- Brick pallets with the inscription "Ziegel 43" in the dimensions 980x980x80 mm are issued by our factory and also taken back again.

- Other brick pallets will be taken back if they correspond to our pallets in terms of appearance, dimensions and quality (square timber made of hardwood, e.g. beech, oak; board made of softwood (thickness 22mm) e.g. pine, spruce).

Not taken back:

- One-way pallets
- Pallets from other sectors
- as well as all brick pallets with the inscription "Ziegel 11".

The following applies to return deliveries:

- Return deliveries of more than 50 pieces must be notified in advance.
- The brick pallets must be stacked and must not be nested (see also comparative photos below).
- A rough inspection will be carried out, in case of clear violations (nested/high proportion of unsuitable pallets) we reserve the right to refuse acceptance.
- Deliveries with minor violations will be accepted with reservations. Proportionate incorrect deliveries will not be reimbursed and will be scrapped. Any sorting costs incurred will be offset against the credit note, if applicable.
